EXPERIENCE

CBREX, Bangalore — Sr. Full Stack Developer

July 2019 - PRESENT (2.5+ Years)

I work with a small tech team and we enjoy driving the company to try new technologies. I worked on Django, React Native, Spring Boot, and Struts along the different verticals of company products.

CBREX, Bangalore — Full Stack Developer(Intern)

April 2018 - June 2019 (1 year and 3 months)

EXPERIENCE

Profile Deduplicator Engine

- Worked on **ML-AI project** which deduplicates the profiles ingested in the system. Implemented the **algorithms under FastText** from scratch and tuned it to work better for our use case. This is the **proprietary software** of the company and one of the **main sources of revenue**.
- Used **Python + Django framework** along with libraries such as Pandas, Numpy, Scikit-learn, Django-rest-framework.
- This project brought down **hours of manual work to ~20 seconds**.
- **Main subject matter expert** for the Profile Deduplicator Engine.

Core Product Apis Development

- **Designed and developed** core product **APIs** with a focus on **low latency** and **extensibility** which is used to power both **frontend and mobile applications**.
- Used **Java+SpringBoot** stack for this project.
- **Main subject matter expert** for the API suite.

Hybrid Enterprise App

- Used the robust stack **ReactNative+Redux+SpringBoot**.
- Led to a **significant increase** in **user engagement**.
- Integrated **multiple** React Native **Libraries**.
- **Main subject matter expert** for the APP.
